

# A COMPLETE GUIDE TO SCALE SPACE WHITE CITY

A partnership between:  
Scale Space White City, London, W12

IMPERIAL

SCALESPACE

WHERE INNOVATIVE  
BUSINESSES  
SCALE

# WE'RE A SCALEUP COMMUNITY

We're a dynamic community of 100+ of the UK's most innovative digital tech and life science organisations. Our goal? To unleash the potential of UK innovation by helping these businesses scale. How do we do it? By connecting these businesses with the right resources, support, and space they need to grow and succeed. Backed by Blenheim Chalcot – the UK's leading digital venture builder – and Imperial – a top-tier global university with world-leading academics and talent – we offer a unique environment to support scaling businesses.

## GROWING COMMUNITY

100+ of the most innovative companies in West London, with key clusters in digital technology, sustainability, AI, and life sciences.

## ACCESS TO TALENT

Hiring talent is one of the biggest barriers to scaling.

We connect you to the talent you need via our links at Imperial. We also run an annual careers fair and regular talent sessions to tee-up those crucial connections.

## WORLD-CLASS EVENTS

With monthly L&D sessions, supplier drop-ins, quarterly socials, and ample networking opportunities, we are events experts!

Recognising the importance of networking in your scaling journey, we curate a yearly calendar of events and offer personalised support for hosting your own events in our top-notch event spaces.

## EXCEPTIONAL FACILITIES

We've got high quality building amenities and five state-of-the-art event spaces.

We cater events of all shapes and sizes, from small meetings up to 200+ multi-day conferences, with exceptional hospitality and a world-class on-site team to support your bespoke requirements.

# WHAT OUR MEMBERS HAVE TO SAY

## **“FOSTERS A CULTURE OF IN-PERSON COLLABORATION...”**

“We place a huge emphasis on developing talent. One of my primary motivations is to provide recent graduates with a learning experience I would have loved in my first job—and to ensure that the learning curve never tails off. We believe it’s essential to be together in person to achieve this, and the Scale Space community strongly fosters a culture of in-person collaboration and togetherness.”

## **“EXACTLY WHAT WE NEED...”**

“Scale Space understands that no two laboratories are the same, and our laboratory space at White City is currently being fitted out to exactly what we need whilst the team take advantage of being part of the wider community and ecosystem.”

## **“A TAILOR-MADE NEW HOME...”**

“Scale Space is targeted at innovative businesses in the and life sciences, technology and digital sectors, and, as new occupants, we were given complete flexibility in design. This has allowed us to create a tailor-made new home that will fuel our continued growth as a company for many years to come.”

## **“WE HAVE EXPANDED PROFESSIONAL RELATIONSHIPS AND PARTNERSHIPS...”**

“We’ve found the opportunities provided by being part of Scale Space to be highly valuable. As a result of our participation in the Careers Fair, we recruited highly skilled graduates to join the team. This has already proven highly valuable to our ongoing growth plans. Likewise, as a result of networking dinners and Lunch & Learns, we have expanded professional relationships and partnerships.”

# OUR COMMUNITY EVENTS

Throughout the year, our calendar buzzes with a diverse range of events. Last year, we hosted over 60 events for our community! From informal Lunch & Learn training sessions (with lunch included) about productivity, managing stress, or how to adopt AI tools into your business, through to lively social gatherings (which usually attract over 400 of our members!). Our events are designed to cater to a vast range of interests and professions, including but not limited to:

## LUNCH & LEARN Monthly

Monthly learning and development sessions covering topics such as wellness, productivity, and mental health. Lunch is included!

## SUPPLIER DROP-INS Monthly

Meet a range of specialist suppliers who can help your lab-based business with equipment, knowledge, or materials.

## SOCIAL EVENTS Quarterly

Flagship socials for all our members, including Spring Social, Summer Social, and Christmas Party.

## ALE SPACE Every Thursday and Friday

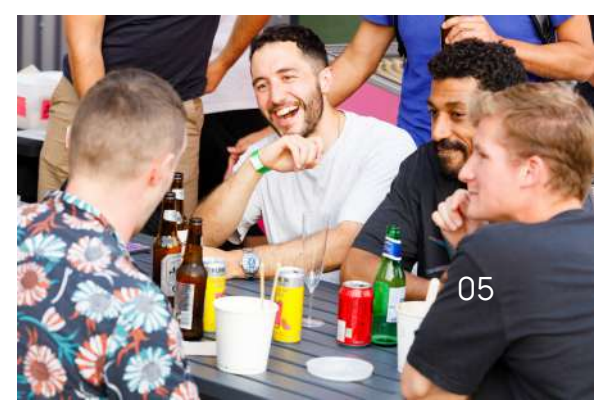

Our own pop-up pub – but with cheaper beer and better company than your usual local! Every Thursday and Friday from 5pm, with the last session of each month including a hot food menu on us!

## CAREERS FAIR Yearly

Flagship annual event dedicated to matching talent from Imperial with our member businesses.

## MEET-UPS Monthly

Cross-community groups focused on different industries and specialities for professionals to gather for learning and networking opportunities.

# THE HIVE AND EVENT CATERING

Our onsite café, The Hive, is open for the enjoyment of members & visitors, offering an array of hot and cold dishes\* which change daily, prepared by the award-winning team at Thomas Franks London.

Open 8am - 5pm Monday – Friday, with a hot lunch menu served from 12pm - 2.30pm.

We have regular 'pop-up' food stalls, so you should have plenty of choice!

Catering options can be provided for meeting rooms and events, to find out more please contact:  
[events@scalespace.co.uk](mailto:events@scalespace.co.uk)

\*Vegan, Vegetarian & Gluten Free options are available.

## Charity

A diaspora-led international development organisation, delivering high-quality programmes in South Asia. Specialise in, and champion the use of, social finance products to drive positive change across the region.

**CONTENTIVE**

## Media

Provides leaders in Finance and HR with relevant insights and industry news.

## Travel

Provides end-to-end VIP travel experiences - operating at the intersection of corporate, leisure and interest travel, providing services to both individuals and leadership teams within corporations.

## Biotechnology

Leading provider of human blood products and biological specimens to the research community.

	<b>Biotechnology</b>	<p>Leading the way in rapid, near-patient sequencing testing that will revolutionise patient care for a range of unmet clinical needs.</p>
<p>Emerging Media Ventures</p>	<b>PE / VC</b>	<p>The sports and media platform of Blenheim Chalcot, the UK's leading digital venture builder.</p>
	<b>EdTech</b>	<p>The only four skills test delivered on a mobile phone, making it the most convenient and accessible recognised English test in the world.</p>
	<b>Marketing Tech</b>	<p>Provide a marketing measurement product for eCommerce brands, helping them navigate the complex world of digital advertising across channels like Google, TikTok and Meta.</p>
	<b>Consulting</b>	<p>Design and deliver business training workshops that drive engagement, productivity, and collaboration.</p>
	<b>EdTech</b>	<p>Using GenAI to help organisations upskill talent at scale by delivering courses adaptable for any audience on any skill all whilst tailored to business needs.</p>

	<b>Gaming</b>	Is a multi-award-winning video game studio located in London, England, focused on creating approachable and mature, multiplayer story-driven experiences.
	<b>CleanTech</b>	Uses biomass electrolysis technology to produce green hydrogen from biomass waste, which has been demonstrated in the lab to reduce the energy required by up to 75%.
	<b>FinTech</b>	Revolutionising how businesses operate by building finance automation solutions that enhance longevity and success.
	<b>Technology</b>	Working with fintechs, property portals, price comparison sites and lenders to drive the mortgage industry.
	<b>FinTech</b>	A Leading global embedded finance platform with a mission to provide small businesses with accessible and responsible finance.
	<b>CleanTech</b>	Pioneers ultra-scalable Direct Air Capture using a novel hybrid electrochemical process, bypassing the current limits in electricity, land, water, and manufacturing.
	<b>CleanTech</b>	Produce ethical and sustainable cultivated meat for pets without compromising on essential nutritional benefits.

**Biotechnology**

Developing Magnetic Haemofiltration, a revolutionary platform therapy that enables the physical removal of specific substances from the bloodstream of patients.

**FinTech**

Leading provider of embedded payments to organisations across the UK and Europe.

**CleanTech**

Develop sustainable and cost-effective advanced materials and thin films, such as metal oxide particles, with sizes ranging from nano to macro, for widespread applications of today and tomorrow.

**HealthTech**

Working to find microbiome-based solutions that are accessible, sustainable and promote the long term wellbeing of women's intimate health.

**Charity**

A national youth charity that believes all young people should have the opportunity to discover their passion and their purpose. Building a national network of state-of-the-art, multimillion-pound Youth Zones in the UK's most economically disadvantaged areas.

**Biotechnology**

Building a platform that uses AI and synthetic biology to develop algae strains that can transform CO<sub>2</sub> into valuable products and are purpose-built for industrial application.

	<b>CleanTech</b>	Designing and manufacturing novel advanced materials for environmental benefit, such as removing harmful pollutants from water and wastewater.
	<b>CleanTech</b>	Developing a new generation of colour and material solutions for the circular economy.
	<b>Sports</b>	One of the 8 founding franchises of the Indian Premier League (IPL), winners of the inaugural season in 2008, finalists of the 2013 Champions League T20 and the 2022 IPL.
	<b>Technology</b>	Discovery and discussion platform for scientists and researchers.
	<b>Biotechnology</b>	Building a platform that leverages gene editing techniques to fix the innate immune system of crops and make crops more resistant to disease, which is crucial to reduce agrochemical use while feeding a growing world population.
	<b>Biotechnology</b>	Developing medicines based on potent broad-spectrum monoclonal antibodies to provide instant and long-lasting protection for vulnerable people.
	<b>FinTech</b>	Partners with employers to offer benefits that help employees around the world become financially healthier & happier.
	<b>HealthTech</b>	Uses behavioural science to retrain your mind to make healthy choices automatically, so these stick in the long run.
	<b>Defence</b>	Saab serves the global market with world-leading products, services and solutions from military defence in all domains to civil security.

	<b>Biotechnology</b>	Enabling nanoformulations for next-generation therapeutics.
	<b>MedTech</b>	Developing an early detection breath test for improved cancer survival.
Strategic Command Innovation Space	<b>Defence</b>	Designed to provide the ideal environment for innovation and growth, the CCS provides Strategic Command's innovation community with the modern meeting, work, and event spaces it needs to come together and work with partners to collaborate and enhance co-creation and co-delivery.
 Synteney	<b>Biotechnology</b>	Builds the AI platform to power disease discoveries from immune data.
 The George Institute for Global Health	<b>Research</b>	A leading independent global medical research institute with major centres in Australia, China, India and the UK, and an international network of experts and collaborators.
	<b>Pharmaceuticals</b>	Vitaccess combines science and technology to deliver real-world research, specializing in providing solutions for generating patient-centered data and insights.
 Undaunted Tackling climate change with innovation	<b>CleanTech</b>	Undaunted is a hub for the UK's climate innovation community, creating new routes into green entrepreneurship and supporting the acceleration of startups and SMEs tackling climate change.
	<b>Biotechnology</b>	Aiming to track biomarkers in menstrual blood to help women with the diagnosis of gynaecological conditions.
	<b>Biotechnology</b>	Transforming the lives of patients with diabetes and obesity by developing safe and effective weight loss therapies.

# GREAT HAPPENS HERE.
